

March 12, 1980

LB 765

year the payments are equal monthly amounts for those months that the payments are distributed to the schools. But, for the current balance of this year, since we no longer have only what, three months left, we have to have the distribution of these last three months different than it will be from now on. This technically will make it permissible for the Department of Education to allocate those funds this year on a monthly basis but for a shorter period of time and then next year it will be back to normal, the full monthly payments over the full course of the year if they are paid out. I think that it is over a nine month period. So, it clarifies it. It makes no change. But it relieves any doubt but the manner in which the department distributes funds for the current school year.

SPEAKER MARVEL: Senator Lamb.

SENATOR LAMB: Short speech. I agree.

SPEAKER MARVEL: Senator Keyes.

SENATOR KEYES: A real short question and it can be over with in a second. Senator Warner will they receive as much money this year as they will receive next year in the three months?

SENATOR WARNER: Pardon?

SENATOR KEYES: Will they receive as much money in the three months this year, as they will receive in the full year next year?

SENATOR WARNER: As much?

SENATOR KEYES: Yes. If it is coming on three monthly payments, will those three monthly payments be large enough to cover the full year?

SENATOR WARNER: Well the payment will cover the full year this year. Yes, in the general sense, that is true.

SPEAKER MARVEL: The motion is to return the bill to Select File for a specific amendment. The specific amendment is the amendment found on page 1062 of the Journal. All those in favor of returning the bill vote aye, opposed vote no. Record the vote.

CLERK: 34 ayes, 0 nays on the motion to return the bill.
